

DECEMBER SPA TREATMENT SPECIALS

NEW TREATMENT! Environmental Stress + Defense Facial

Internal and external environments wreak havoc on our skin. Pollution, UVA/UVB radiation, blue light from device exposure and daily stress precipitate inflammation and cause skin sensitivity. This highly nutritive and anti-inflammatory facial utilizes marine-based ingredients designed to mitigate the harmful effects of less-than-perfect environments. This treatment utilizes Cosmos Organic Certified® skincare products, intended to down-regulate inflammatory cytokines and increase circulation, to calm and provide your skin a healthy support barrier. A marine collagen elixir with turmeric and gotu kola provides additional internal anti-inflammatory health benefits for the most holistic results.

Beyond Organic Biodynamic® Facial *for all skin types*

Enhanced results from Hungarian facial techniques increase tonality and dramatically improve the health of your skin (and the planet).
